Course Outline

The study of real estate commences with the beginning of time. The Garden of Eden was a specific piece of land. The 30 pieces of silver given back to the Pharisees by Judas was used to buy the Potters field as a cemetery. In this course we study the legal terminology used to describe every facet of real estate transactions. You will learn the various forms of deeds, how they are drafted and how title to Land is transferred. Our Study will include.

Leases, mortgages, promissory notes, easements, purchase agreements and partial proceedings.

Let us begin the journey.

Tests

The tests will be 60% textbook material and 40% notes from the lectures/handouts.

My tests are incredibly easy. They include:

- True/False
- Multiple Choice
- Definitions
- Essay Questions

There is no Mid-Term or Final Examination.

Guest Speakers

We will have two guest speakers come to discuss real estate and business.
