Office: Flipse 446
Hours: M 2:00-4:00

Textbook: Drugs Society, and Human Behavior by Hart and Ksir 17thth edition (2018)

Readings: You will be responsible for reading the textbook and the articles, as well as viewing videos that will be posted on Blackboard, under Assignments, throughout the semester. For this course, you will be required to purchase McGraw-Hill Education Connect® access for the textbook. You may choose not to buy a print text since Connect contains the full reading experience. Please be aware we are using the 17th edition of the textbook. Connect codes are available in the bookstore or via Connect when you register. A print-upgrade option is also available *via Connect* if you find yourself wanting a print companion at some point during the semester. This will be a full color binder-ready version of the text for ~\$15.00.

Information on REQUIRED course material:

Title	Edition	Author	Publisher	ISBN
Connect Drugs, Society, and Human Behavior	17	Hart	McGraw-Hill Education	9781260240917

Registering for Connect: You must register for Connect ASAP. You will have access to Smartbook material immediately via the courtesy access. To register for Connect follow the PowerPoints posted on Blackboard under Course Documents.

Connect Support: Should you encounter any difficulties registering for Connect, please contact McGraw-Hill support team, and not your professor. The Customer Service team is available Monday – Sunday to answer your questions and assist you with any technical issues.

Course Overview: This course serves as an introduction to Psychopharmacology. It covers various aspects of how drugs can affect behavior. The broad goals of the course are to familiarize the student with the social and cultural aspects of drug use, laws and policies that regulate drug use, treatment and prevention of drug abuse, and the scientific aspects of understanding drugs effects on the body. The major drugs focused on in the course are psychoactive drugs, however, other classes of drugs will also be discussed.

Prerequisites: 2.5 GPA; 12 PSY credits, including PSY 220 and 291 or 292 (Alternative Prerequisites: 9 credits in PSY, including PSY 291 or 292; 3 credits in BIL 150 (or above) or CHM 111 (or above))

Grades: Your grade will be based upon four in-class examinations worth 50 points. See semester outline for exam dates. Your final grade will be based on a possible 200 points (50 points per exam).

Exams: Each of the four exams will have 40 multiple-choice questions and 10 short definitions. All questions will be worth one point each. You will be required to take all four exams. If you miss a scheduled examination a make-up exam will be given during the final exam period. You will be allowed to take only one make-up exam.

Student submitted exam questions: Students are encouraged to submit m-c exam questions 10 days prior to the exam. Some will be selected to be on the exam.

Cheating Statement: As per policy of the Department of Psychology, penalties for cheating and/or plagiarism will be enforced on all tests and class assignments. Cheating will not be tolerated. It is expected that all students will maintain the standards of academic honesty. Cheating or plagiarism can be reason for failure of this course.

Attendance: Class attendance is strongly recommended. Class discussion can contribute to your final grade. In addition, exam questions will come from materials presented in class.
